

Travis Collins

2118 Green Watch Way #100, Reston, VA 20191

(256) 513 - 5097 Travis@DreamingWell.com

OBJECTIVE

Seeking a full time position or contract as a web application developer, with a specialty in Adobe Flex.

SKILLS

Adobe Flex 2 & 3, J2EE, Adobe Flex Data Services, Cairngorm, ActionScript 3.0, AJAX, XML, PHP, C, Javascript, SQL, User Interface Design, TCP/IP, IPSEC VPN, T1, Ethernet, Frame-Relay, MPLS, SIP

EXPERIENCE

Flex Developer, Comsys Contractor for XM Satellite Radio **June 2008 - Present**

Presentation layer Flex developer for XM's online marketing applications group. Developed a Flex GUI for xmradio.com/shop that handles all consumer direct sales for XM. Integration with Alfresco, Oracle Siebel, BEA WebLogic and a custom ASP .Net shopping cart.

Technical Lead & Flex Developer, IBM Contractor for Sprint Nextel **October 2007 - June 2008**

Led a team of Java developers for an Adobe Flex based network planning application. Responsibilities included teaching Flex, architecting data structures and designing the UI. Implemented on a Websphere J2EE server using Cairngorm architecture. A video demo is available upon request.

Software Engineer, AdTran, Inc. **June 2005 - October 2007**

Developed web interfaces for embedded networking devices. Responsibilities included user interface design, data architecting, and team design coordinations. Daily use of Flex, javascript, AJAX, CSS, TCL and C. Video demo of a VoIP quality monitoring Flex interface is available upon request.

Sole Proprietor, DreamingWell.com **December 2001 - Present**

Provides web services to small businesses and local governments. Specialization in online auctions, customized shopping carts, invoicing, information management and dispersion solutions. All solutions include development and hosting services. Portfolio at <http://DreamingWell.com/portfolio>

Senior IT Associate, Texas A&M University **June 1998 - June 2005**

Personally designed, developed and implemented a custom anti-virus solution that reduced on-campus viruses from over 8,000 infections to 1. Was the first student worker to receive the "Computing and Informations Services Employee of the Month" award; May 2005.

EDUCATION

BS. Telecommunications Engineering Technology - Texas A&M University, May 2005

Honors Track Graduate - A&M Consolidated High School, College Station, TX

Certifications

Cisco Certified Network Associate (CCNA) - September 2005

ADTRAN Inter-networking Certification - June 2006
